(54) COMPOSITION FOR SKIN LOTION

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain the subject composition for skin lotion that includes an extract from jojoba leaves, as an essential component, in other words, contains a plant extract having the action to inhibit active oxygen as an excellent cosmetic additive from the view points of the price, irritations and effects, and is useful as a skin lotion or the like.

SOLUTION: This composition contains, as an essential ingredient, an extract of jojoba leaves, preferably in an amount of 0.00001-5.0 wt.%, more preferably 0.001-0.5 wt.% on the dry basis. This extract is obtained by extracting raw or dried jojoba leaves, directly or after being crushed, with a solvent, for example, ethanol or the like at room temperature or under warming, when necessary, concentrating, filtering and purifying or the like the extract. The composition is useful as the basic cosmetics, for example, milky lotion, cream, pack or the like and as a make-up cosmetic, for example, foundation cosmetics or the like.
